

### PLV (Career Services Seminars)

PLVs are practical courses in the form of seminars (PLV) which are organized and held at the university. These must be completed before the start of the practical semester in the 5<sup>th</sup> semester.

The PLV consists of seven Career Services seminars. Every student in the Health Informatics programme must complete four seminars from the rubric "Study and Personal Competencies" and three seminars from the rubric "Career Competencies". Students can download the confirmation form for the seminars on iLearn.

Register for Career Services seminars at [www.th-deg.de/seminare](http://www.th-deg.de/seminare)

The topics of the seminars can vary each semester.

You have the opportunity to participate in seminars both in Pfarrkirchen and Deggendorf.

The following table is a schedule recommendation by the Career Service:

<b>Between the 1<sup>st</sup> and 3<sup>rd</sup> semester (Study and Personal Competencies)</b>			
Intercultural Competencies (obligatory)	Presentation techniques (obligatory)	Learning strategies (obligatory)	Any seminar from the Career Competencies category

<b>4. Semester Career Competencies</b>		
Application (obligatory)	Any seminar from the Career Competencies category	Any seminar from the Career Competencies category

**Note: The above tables are merely a recommendation; you are free to create your own schedule.**

Students can register for the seminars on the Career Service's website under "PLV". After every seminar, the lecturers will sign the confirmation form. After having taken all seven seminars, the form has to be uploaded to the "Career Service PLV Health Informatics" course on the iLearn platform. The Career Service will check the form for correctness and completeness and pass the form on to the faculty, so that the successful passing of the PLV can be recorded with the "Praktikumsverwaltung" (Internship Administration). Students are **self-responsible** for taking and passing the seminars before their internship begins.
